In the Claims:

**RECEIVED**

Please amend the following claims:

APR 15 2003  
OFFICE OF PETITIONS

*Sub*

1      2. (Once Amended) A nonvolatile storage system comprising:  
2            a controller capable of receiving commands from a host; and  
3            a nonvolatile memory storage coupled to said controller, said storage organized in  
4            blocks, with each block having two or more sectors of data,  
5            wherein said controller, in response to receiving a command from said host to rewrite one  
05/01/2003 LKINARD 00000001 501638 09620544  
01 FC:1201 6            or more, but not all, sectors of data that are stored in a particular block, writes said data for  
7            168.00 CH        said sectors to be rewritten to a new block without moving the data in the sectors in said  
8            particular block that the host did not specify to rewrite in the command.
